

Dear Volunteers,
Thank you so much! Now I know
about disabilities. When I see someone
in a wheelchair or anyone who has
a disability I will say hi and ask
them if they want to play. Anyone
with a disability can learn. Everyone
know I like friends so kids with
disabilities definitely want friends. On
disability day I really enjoyed all
the stations. The dogs were so cute,
the wheelchairs were fun to steer,
and I liked learning about learning
disabilities. I really appreciate you
guys taking time out of your day to
teach us about disabilities.

Sincerely,
Chloe

Dear volunteers,

October 29,

Thank you for helping ^{out} with the stations. They were really fun. I enjoyed them a lot. I learned that if people look different on the outside but in the inside they are the same. I am thankful for you coming. ^{and helping} I enjoyed the dog one and the wheelchair one. because I learned what it is like in a wheelchair.

Your friend
Anthony
